2. Complete fair notebook.
3. Draw a neat diagram of the water cycle on chart paper.

➤ Maths

1. Do complete fair up-to-date.
2. Prepare MCQ from percentage.

➤ Project work:

3. Collect hypothetical data on a class test result including total student number of boys and number of girls who passed or score above 40% Calculate the percentage of boys who passed/score above 40% and the percentage of girls who passed. (i) Determine the percentage of boys... (The rest of this sentence is cut off, but it seems to be continuing the project work instructions). Note: The handwriting is slightly difficult to read in some places, so there might be minor interpretation differences. The main project work seems to involve hypothetical data collection and calculation of percentages related to students scoring above 40% in a class test.

➤ English

1. Write Structure of Active & Passive Voice on chart paper.
2. Write Structure of Tenses on chart paper.
3. Write & learn Q/Ans of L-6 & 7.
